

# CHAPTER 17 PRODUCTION MANAGER

The Production Manager add-on lets you control inventory with pinpoint accuracy, reduce unplanned expenses and improve cash flow. Efficiently plan production from beginning to end and track progress with real-time information on raw materials, costs and production status.

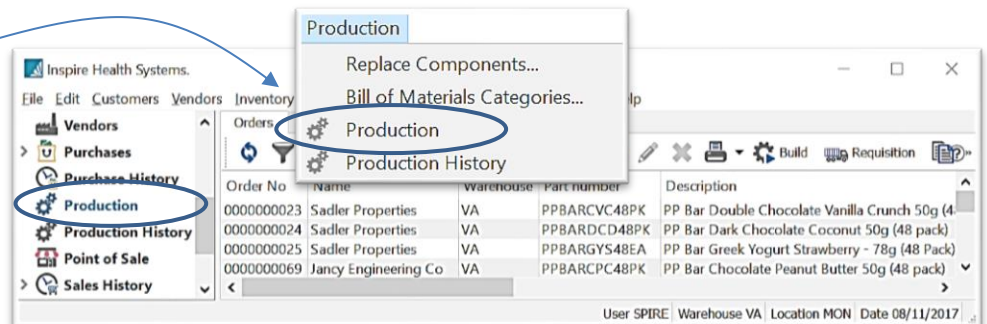

## **Production Order List**

### ■ Access

◆ **Production** text menu

◆ Module List > **Production**

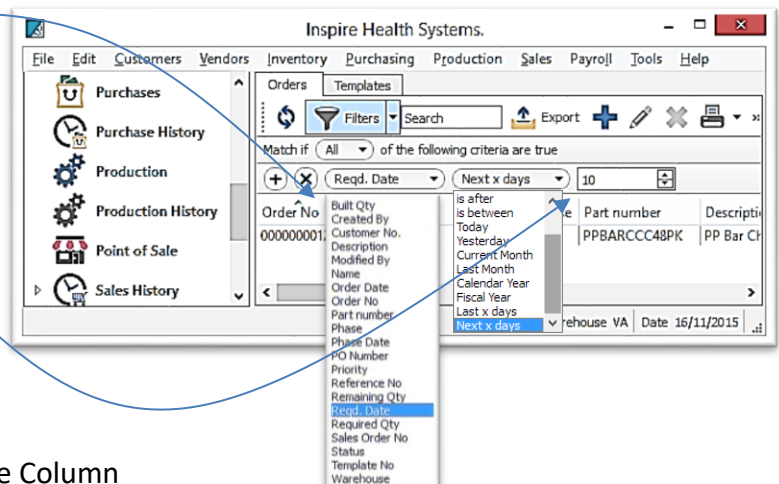

■  **Refresh** - load any new Production Orders that may have been created by another user since the last time data has been refreshed and that may not be displayed

### ■ Production Order List Customization

◆  **Filters** - create a filter for this list

- ◆ click  **Filters** icon
- ◆ select from the **Any** or **All** operators
- ◆ select from the list of fields to set the criteria
- ◆ select from the functions ie: 'is one of', 'is not', 'Next x days', etc - this function list changes based on the field selected in the previous step
- ◆ enter the criteria information
- ◆ if desired click  to add a line of criteria
- ◆ to remove the criteria line click 
- ◆ make any column adjustments (see Column Customization page 2)

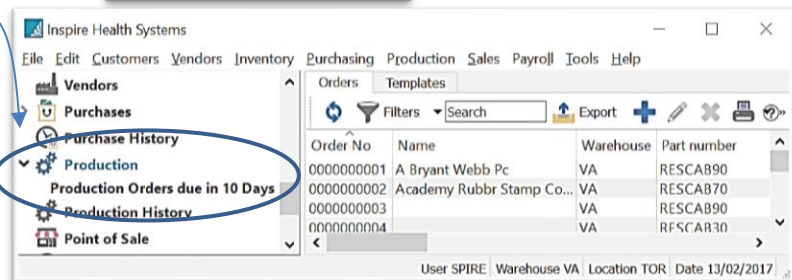

# CHAPTER 17 PRODUCTION MANAGER

✚ select **Filters** for save options

- **Save default** - this filter will load when you click the **Filters** button
- **Save preset** - will add the current filter to the Filters menu

- ✚ give this filter a name
- ✚ select **User** if this filter it will be used just for this User
- ✚ select **Company** if it is to be accessed by all users accessing this Company data
- ✚ ☒ **Show in module list** to display beneath the module name in the module list
- ✚ ☒ **Save column state** if you have removed or added columns, or have sorted the list by one of the columns
- ✚ click OK...this new filter will display in the Filters menu

- **Save preset as...** - if you have loaded an existing Filter, changed the criteria set, and want to save this Filter under a different name

✚ click on the **Filters** button to release the current filter to see entire list or start a new filter

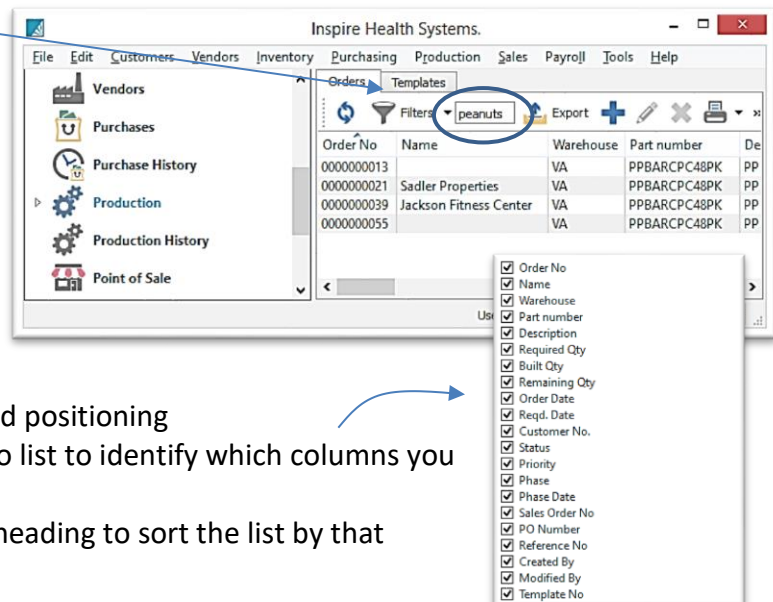

◆ **Search** - type any character(s) into the field and the list will narrow to only records containing the character(s) typed, somewhere in the details

◆ open a Production Order to use the **Navigate** buttons **<** **>** to page through Production Orders in the list, filtered or not filtered

## ◆ Column Customization

- ✚ drag and drop columns for preferred positioning
- ✚ right-click on any column heading to list to identify which columns you wish to see in the grid

◆ **Column Sort** - click on any column heading to sort the list by that column

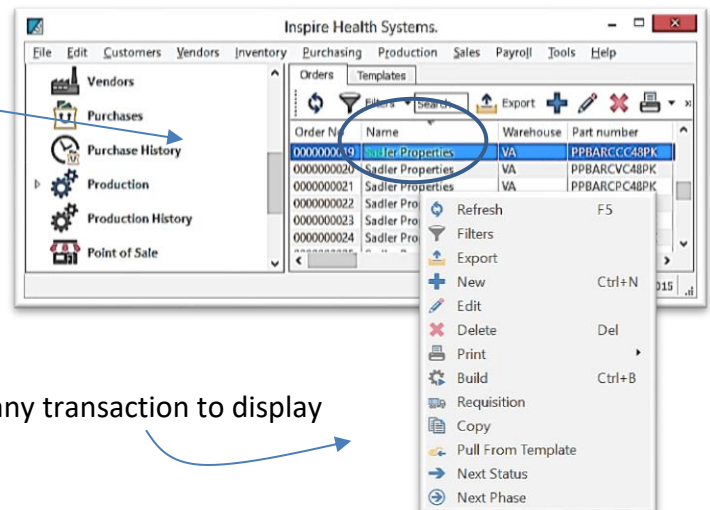

# CHAPTER 17 PRODUCTION MANAGER

- ✦ further narrow your search by just typing and the list will highlight the closest match, in currently sorted column

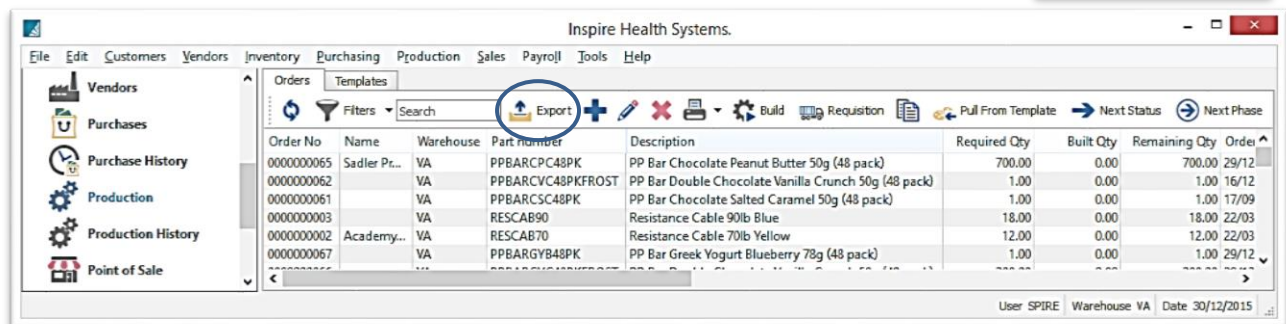

## Icon Menu Customization

- ✦ hover over the Icon Group handle until you see
- ✦ drag the Icon Group to where you want it

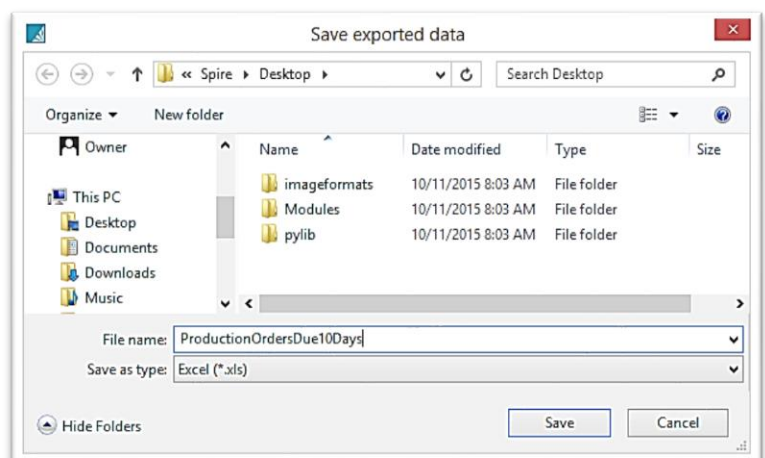

- Production Order List **Quick Menu** - right-click any transaction to display

- **Export Production Order List**

- ✦ **Access** - Production Order List task bar
- ✦ select Production Order(s) from a filtered list (will export exact column layout) or unfiltered list (see Filters Page 1)
- ✦ click **Export**
- ✦ choose the location **File name**, and **Save as type** it is to be saved in
- ✦ **Save**
- ✦ option to **Open File** right away
- ✦ from excel, make any changes or build any desired formulas

# CHAPTER 17 PRODUCTION MANAGER

## + Add New Production Order in one of 3 ways:

### 1. Add New Production Order Manually:

- ◆ from the Production Order List > **Orders** tab click **+ New**
- ◆ **Build No** is displayed, the sequence for which is established in Company Settings > Sequence Numbers > Production Orders tab
- ◆ option to enter or browse for a related **Sales Order** if this is a Sales Order-specific Production Order (see also Add New Production Order from a Sales Order page 13)

Inventory	Description	Quantity	Built Qty	Remaining Qty	Unit Cost
[VA] PPBARGYS48EA	PP Bar Greek Yogurt Strawberry...	1.00000	0.00000	1.00000	1.00000
[VA] WHEPRO	Whey Protein	100.00000	0.00000	100.00000	100.00000
[VA] SOYLEC	Soy Lecithin	25.00000	0.00000	25.00000	25.00000
[VA] STRBERR	Strawberries	100.00000	0.00000	100.00000	100.00000
[VA] OATS	Oats	100.00000	0.00000	100.00000	100.00000

- ◆ **Phases** is an optional process monitoring system used to label orders internally, with option to set each Phase to automatically print a pre-determined form(s) and move to a Next Phase, as pre-determined in the Phases setup (also maintained under Edit > Phases), and option to set default start Phase for new Production Orders, by User (Edit > User Settings > Production Orders > Default Phase)

Phase	Description	Type	Next Phase	Report
BUILD	Build	Production Order	PICKING	
PACKAGING	Packaging	Production Order		
PICKING	Picking	Production Order	PACKAGING	

- ◆ once a phase is established, it will appear in the Production Order list, for use in filters, searches and reports

Order No	Phase	Customer No	Name
0000000001	PACKAGING	ABR885	A Bryant Webb Pc
0000000002	PACKAGING	ACAD488	Academy Rubbr Stamp Co Inc
0000000003			

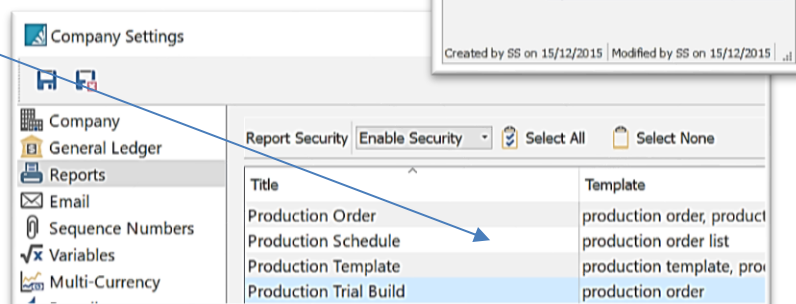

# CHAPTER 17 PRODUCTION MANAGER

## + New Phase

- enter **Phase Code**
- accept Production Order **Phase Type**
- enter **Description**
- options to select a **Report Template** to be printed when this Phase is assigned (ie: production order)
  - ▲ identify Report Templates in Edit > Company Settings > Reports > Template
- assign the **Next Phase** - for use with the ➡ **Next Phase** function from the Production Order list or from inside the Production Order, to advance to the Phase determined here

- + ↻ **Refresh Phases**- bring in any new data that may have been entered by another user since you have had this module open or since the last time data has been refreshed

- + ⚙ **Filter / Search / Customize Phases List** - see **Production Order List Customization**, page 1

- + ⚙ **Phases Quick Menu** - right-click on selected line(s) in the list to display

- + 📄 **Export** Phases list in Excel or CSV format - see **Export**, page 3

- + ✎ **Edit** Phase selected.

- + ✖ **Delete** Phase selected

- ◆ option to enter or 🔍 browse for a **Phase Date** for the Phase assignment
- ◆ option to enter or 🔍 browse for a related **Customer** for a Customer-specific Production Order (see also Add New Production Order from a Sales Order page 13)
- ◆ accept the **Order Date** or change by entering or 🔍 browsing
- ◆ enter or 🔍 browse for the **Required Date**, which is used to determine order times for raw materials
  - + once the Production Order is change to 'Pending' or 'In Progress' status, this date will show as the **Due Date** in the Inventory Item General tab, Purchasing section
- ◆ **Status** selection
  - + **Open** - ready to process, inventory items are not yet committed
  - + **Pending** - waiting for go-ahead, inventory items are committed
  - + **In Progress** - production has started, inventory items are committed
- ◆ option to enter a **Ref No** of your choice and significance
- ◆ **Priority** selection - for filtering, sorting and reporting purposes
- ◆ enter **Customer PO** if this is a Customer-specific Production Order (see also Add New Production Order from a Sales Order page 13)
